

NEW SOLUTIONS COMPANY
PROFILE

About Us

**We are Pioneers in Protection,
Privacy and Technical Services..**

and because security is your first choice in light of the current technological renaissance and the existing digital revolution, all roads lead to the necessity of protecting your information and data, whether you own a startup company or you are a specialist in your business field, and because security threats are becoming more fierce and complex day by day, and the most important companies around the world and governments are demanding a high degree of security to protect homes and businesses; Just as you cannot currently create a trusted business without your digital space being secure, New Solutions is always ready to protect your security and privacy.

• Our Vision

We look forward to..

Being the first security solutions company in the Kingdom of Saudi Arabia for the unique technical and engineering solutions we provide to our customers.

• Our Mission

New Solutions was founded..

with an unprecedented idea, as it works in consideration of best practices and technology methods that give the customer real impact in security updates, and because we believe in our competence, our work follows the methodology of our technology team consisting of consultants who are committed to providing the highest standards of quality, and effective solutions in terms of efficiency, cost and long-term impact within our geographical scope. Our company is unique and diverse, as our team is distinguished by being able to organize projects, and information systems for public institutions and bodies.

01

Serving our homeland

Harnessing our talents and skills to protect the nation and contributing to preserving our privacy through important solutions that contribute to preserving our security.

02

Credibility

You can always rely on us for our services, because our approach is to work within the framework of food and budget, and we are keen to attract competencies that follow the same approach with us, and this is what distinguishes us in our field.

03

Integrity

Working with work ethics in an effort to preserve our image and our keenness to be above suspicion, as we work with the highest standards of intellectual and financial accountability, we are responsible for what we do!

05

Partnership

As a partner-centric company, we work with both large and small business/partners to ensure that we provide comprehensive, unique and differentiated solutions to our clients.

04

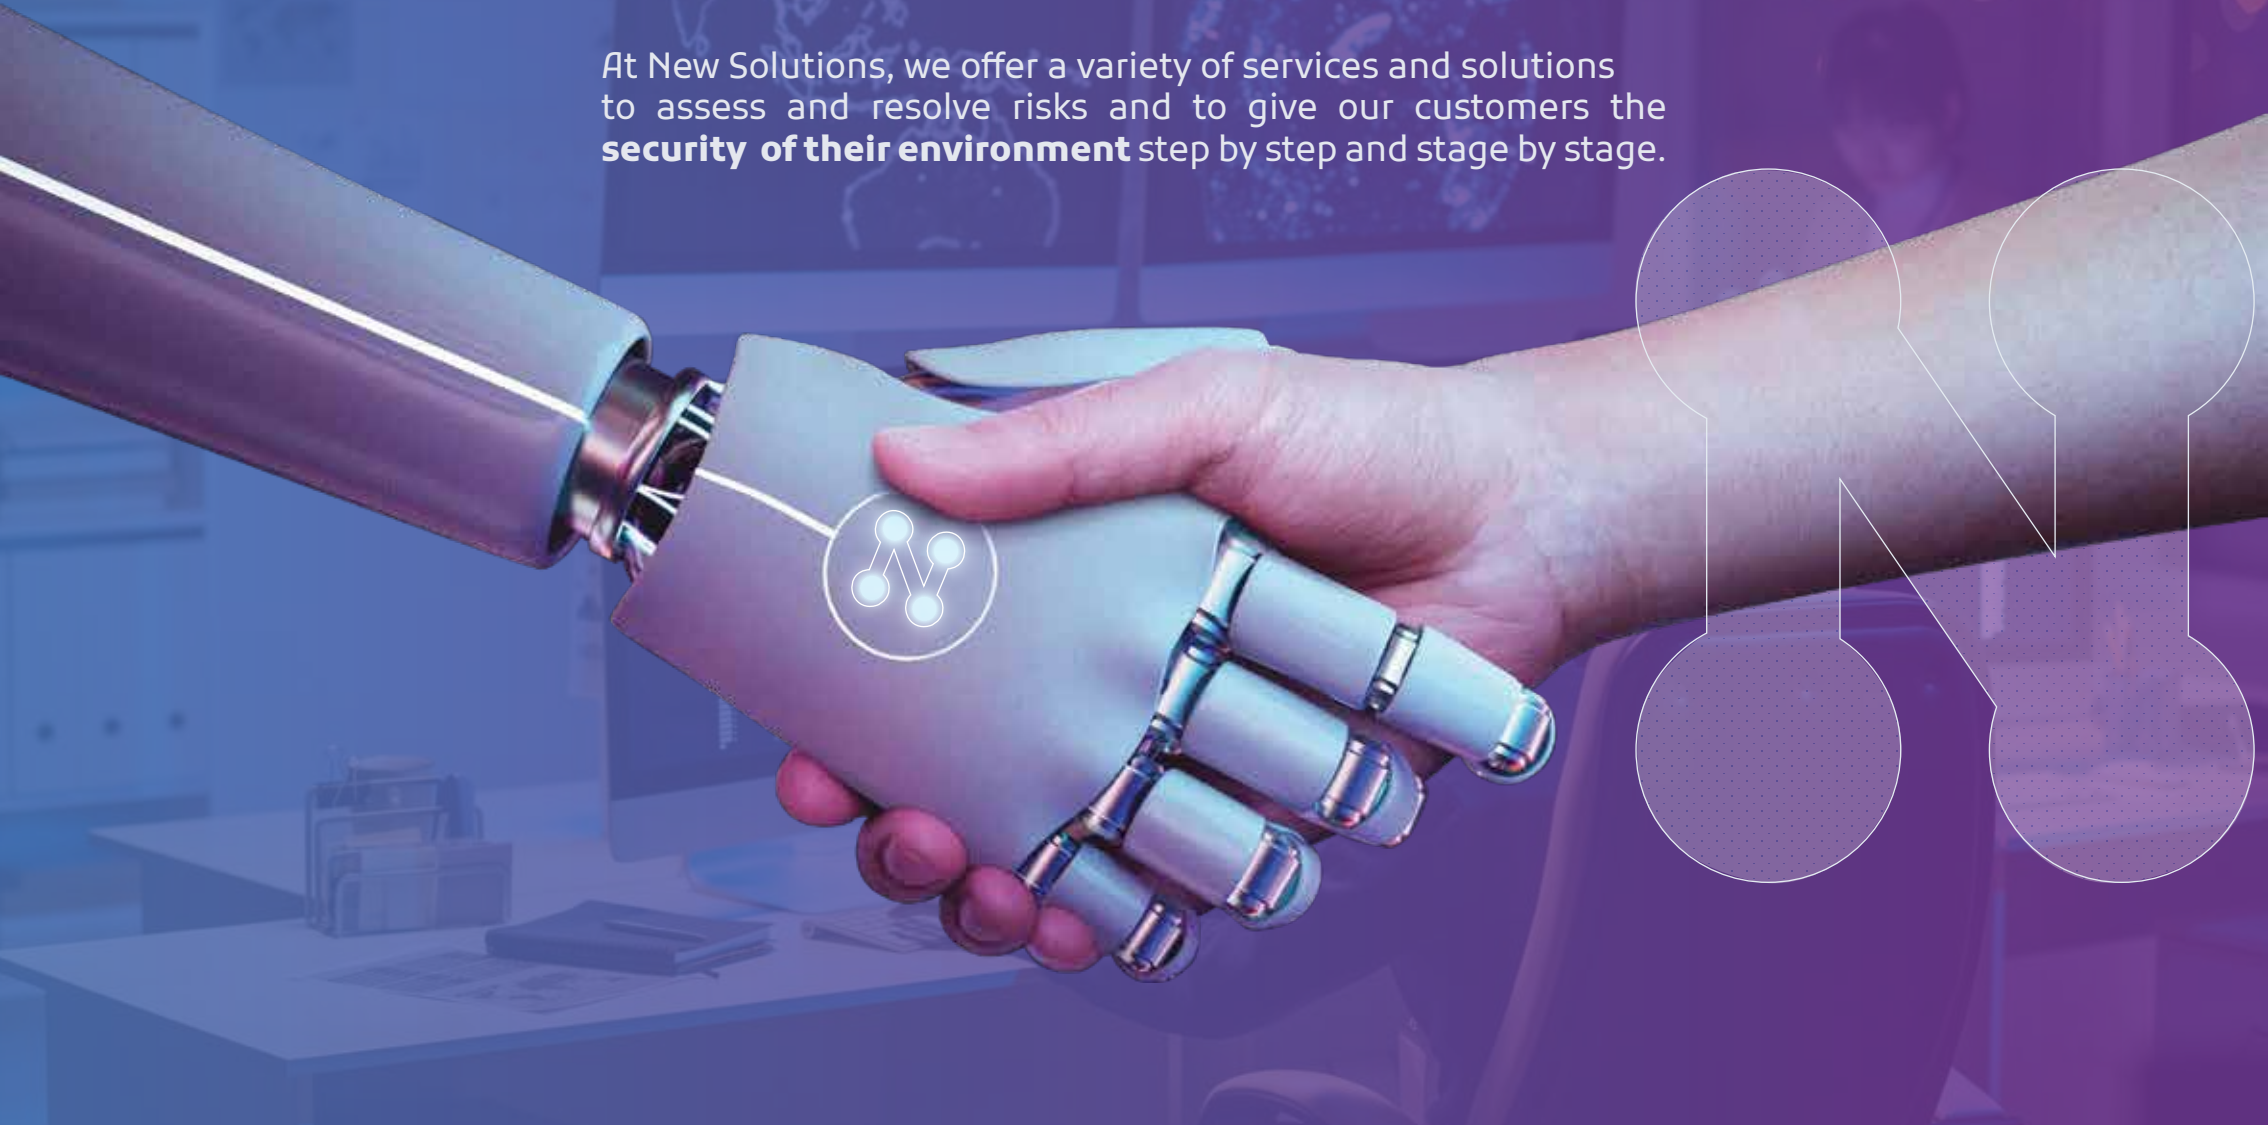

Quality

Our use of ISO 20000, 27001 and National Standards (NCA NESAS, SAMA) we manage quality internally and externally, so we are able to exceed the highest standards when providing solutions to our customers.

Our Values

Our Services

At New Solutions, we offer a variety of services and solutions to assess and resolve risks and to give our customers the **security of their environment** step by step and stage by stage.
